- Addition or Subtraction Bingo
 - Using addition or subtraction flash cards and a bingo card in a page protector, write likely sums (for addition) or differences (for subtraction) in the bingo card spaces
 - The caller draws from the pile of flash cards to give addition or subtraction math facts for player(s) to solve
 - Player covers correct answer on bingo card
 - First player to get five answers covered in a row wins
- Addition or Subtraction Bingo 2
 - Using your dice and a bingo card in a page protector, write numbers 12 and under (for addition) or 5 and under (for subtraction) on the card
 - Roll the dice, add the sum of the two or subtract the smaller amount from the larger one, and cover that number on your board
 - Lots of variations in ways to record accuracy exist—be positive with each attempt they give, right or wrong, and keep increasing the level of challenge depending on your child's level of performance
